

ZIEBART FLEET SERVICE CENTER

Super Rust Protection

The most advanced rust protection system available for your fleet.

The exclusive Ziebart rust protection system will extend the life of your fleet, improve your corporate image and deliver a higher resale value at auction time. Because fleet vehicles are constantly exposed to salt, rain and moisture, they need added corrosion protection. Especially those vehicles with an extended service life. Backed by up to a 10 year warranty* and over 50 years of experience, Ziebart is the name you can trust to protect your fleet.

Features & Benefits:

US Federal and Military approved sealants (A-A-59295)
Federal standard 297-E compliance
Higher resale value at auction time
Longer term rust prevention for fleet vehicles of all sizes
Severe environment processing available

Complete body preservation system
Digital specification library for most vehicles on the road
Patented spray tooling to ensure complete coverage of all hidden rust-prone areas
Factory certified technicians

Maintenance Resprays

Each year, a factory trained Ziebart technician will respray the critical seam areas on your vehicle. Resealing lower seams, spot welds, and cargo doors to ensure long term rust prevention. For added convenience, this service may be performed at your facility by an authorized Ziebart technician.

*See dealer for details

Ziebart Undercoating

- Durable underbody sealant seals out water, salt and mud
- Protects against road damage and abrasion
- Reduces vibrations, and insulates underbody from heat and road noise

Critical Area Protection

- Semi-tropical processing meets federal and military standards

Rust Eliminator

- Ziebart rust eliminator converts existing rust on used vehicles to a stable compound

- Enclosed Area Sealant
- Rust Eliminator
- Under-body Sealant

Detailing Services

Improve your corporate image on the road and maximize resale potential.

Your fleet vehicles are seen by the public everyday. They project your company's image. At Ziebart, we make sure your vehicles always look their best. Plus, drivers take better care of vehicles when they're kept neat and clean. And with most budgets, demand for maximum resale value at auction time is crucial. Our complete reconditioning program will make your fleet vehicles look their very best. It's simple...give the auction buyer what he wants and he'll pay more for your vehicles at resale time.

Complete Detailing

- Hand wash entire vehicle
- Remove bugs, road tar, soap film, etc
- Polish faded or oxidized paint surfaces to bring out maximum shine
- Clean and dress tires and wheels
- Complete overall detailing on vehicle exterior

Recommended Uses

- Annual service
- Mid-point reconditioning
- Pre-disposal clean up
- Vehicle transfer
- Sales vehicles
- Service vehicles
- Courtesy vehicles
- Severe-use vehicles
- Environmental damage
- Industrial damage

Antibacterial Detailing

Professional detailing is vital to the longevity of your fleet. Dirt, grime, road salt, and other contaminants can stain and destroy your fleet's interior. Regular cleaning can keep stains and problems from becoming permanent. And with Ziebart's anti-bacterial cleaning process, we not only get your interior clean, but sanitize it as well, creating a healthier environment for you and your staff.

Ziebart
Germ Defender™

powered by  BIOSHIELD 75

Ziebart Germ Defender is a long-lasting surface protectant used in conjunction with interior detailing to protect hard surfaces and fabrics from the growth of germs, odor causing bacteria and mildew within a vehicle's interior.

Germ Defender forms an odorless, colorless, **completely NONTOXIC** microscopic "bed of nails" on a surface and punctures the cell wall of microbes that land on the surface, and then electrocutes the microbe. All of this happens mechanically, so the microbe is unable to build up an immunity to Germ Defender. This protection is EPA approved to last a minimum of 90 days, no matter how often the surface is wiped down or cleaned.

Films

Ziebart Paint Protection Film

The thickest film on the market for maximum protection
 Machine-cut, vehicle-specific patterns available for virtually any vehicle
 Tough yet nearly invisible protection against scratches and nicks caused by road salt, sand, road debris, insect stains, and more
 Warranted not to lift, bubble or peel

Window Tint

Variety of shades available to suit your needs
 Maximum heat rejection increases driver/passenger comfort
 99% UV rejection to protect the vehicle interior as well as the passengers
 Tough, scratch-resistant coating
 Warranted not to peel, bubble or fade

Spray-on Liner

Polyurethane & Epoxy

Features and Benefits

- Professionally applied by factory-trained technicians
- Non-skid surface provides maximum safety for employees and cargo
- Bonds directly to the surface, sealing out moisture and salt
- Excellent chemical resistance to petroleum products, fertilizers, acids and more
- Won't warp, crack or peel even in harsh environments and is repairable if damaged
- Ziebart has decades of experience applying spray on liner to a wide range of fleet and industrial applications of all sizes

Typical applications

Pickup truck and cargo van beds	Service vehicles and utility bodies
Light, medium and heavy duty dump boxes	Mass transit vehicles
Salt spreaders and hoppers	Industrial equipment walk-ways
Street sweepers and vacuum trucks	Chemical holding tanks and secondary containment areas

Windshield Repair

Features and Benefits

- Inexpensive alternative to replacement
- Permanent repair of windshield chips and small cracks
- Ultra-strong, UV-stable resin is injected into the chip to prevent further breakage
